WE'RE MAKING OUR PACKAGING MORE SUSTAINABLE

We're transitioning from single-use plastic to paper-based packaging. As we progress, you may find a mix of paper and plastic in our boxes.

NOUS RENDONS NOS EMBALLAGES PLUS DURABLES

Nous passons des emballages en plastique à usage unique aux emballages à base de papier. Durant la transition, vous pourriez trouver un mélange de papier et de plastique dans nos boîtes.

QUEREMOS HACER MÁS SUSTENTABLES NUESTROS MATERIALES DE EMBALAJE

Estamos cambiando las bolsas de plástico desechables por bolsas con base de papel. Conforme avanzamos en este propósito, puedes encontrar una mezcla de papel y de plástico en nuestras cajas.

GRINGOTTS™ WIZARDING BANK

At the far end of Diagon Alley™ when you enter from the secret passageway in The Leaky Cauldron, Gringotts™ Wizarding Bank may not be the first magical building you see. It is, however, one of the most spectacular. Behind its crooked columns and walls, the bank's loyal goblin staff guard the greatest fortunes and most powerful artifacts owned by all of Britain's witches and wizards. In the words of Hagrid™, "Ain't no safer place, not one. 'Cept perhaps Hogwarts™."

It is here Harry Potter™ first discovers his family fortune and where he, Ron and Hermione later break into Bellatrix Lestrange's vault to find a Horcrux (only to discover this is definitely not a safe place for intruders), and finally make their daring escape on a dragon, leaving the noble old bank in shambles.

LA BANQUE DES SORCIERS GRINGOTTS™

Puisqu'elle est située tout au bout du Chemin de Traverse, lorsque vous entrez par le passage secret du Chaudron Baveur, la banque des sorciers Gringotts™ n'est probablement pas le premier bâtiment magique que vous voyez. Elle est toutefois l'un des plus spectaculaires. Derrière ses colonnes et ses murs tordus, les fidèles gobelins employés de la banque gardent les plus grandes fortunes et les plus puissants artefacts appartenant aux sorcières et sorciers de la Grande-Bretagne. Comme le dit Hagrid™, « Y'a pas un endroit plus sûr au monde. Pas un seul. Sauf peut-être Poudlard. »

C'est ici que Harry Potter™ découvre la fortune de sa famille et que lui, Ron et Hermione pénètrent dans le coffre de Bellatrix Lestrange pour y trouver un Horcruxe, constatent que c'est un endroit peu accueillant pour les intrus, et s'échappent de façon audacieuse sur un dragon, laissant la noble et vieille banque en ruines.

BANCO MÁGICO GRINGOTTS™

Ubicado en el extremo más alejado del Callejón Diagon cuando se entra por el pasadizo secreto de El Caldero Chorreante, el Banco Mágico Gringotts™ podría no ser el primer edificio mágico que veas. ¡Pero estamos convencidos de que será uno de los más espectaculares! Tras sus retorcidas columnas y muros, el leal personal de duendes del banco custodia las mayores fortunas y los artefactos más poderosos en propiedad de todas las brujas y magos de Gran Bretaña. En palabras de Hagrid™, "es el lugar más seguro del mundo para lo que quieras guardar, excepto, tal vez, por Hogwarts™".

Es aquí donde Harry Potter™ descubre por primera vez la fortuna de su familia y donde él, Ron y Hermione irrumpen más tarde en la bóveda de Bellatrix Lestrange para encontrar un Horrocrux (solo para descubrir que este definitivamente no es un lugar seguro para los intrusos) y finalmente realizan su temerario escape en un dragón, dejando el noble y viejo banco destrozado.

THE VAULTS

Vaults, located in caves stretching deep underground, are protected by powerful incantations, guards, trolls and a dragon. To open a vault, its owner must first pass rigorous security checks and be escorted by a bank employee. Some vault doors can be opened with a key, others require intricate unlocking mechanisms and spells.

LES COFFRES

Les coffres, logés dans des grottes creusées profondément sous terre, sont protégés par de puissantes incantations, des gardes, des trolls et un dragon. Pour ouvrir un coffre, son propriétaire doit d'abord passer des contrôles de sécurité rigoureux et être escorté par un employé de la banque. Certains coffres peuvent être ouverts avec une clé, d'autres nécessitent de complexes mécanismes de déverrouillage et des sorts.

LAS BÓVEDAS

Las bóvedas, ubicadas en cuevas que se extienden por debajo de la tierra, están resguardadas por poderosos encantamientos, guardias y troles, y por un dragón. Para abrir una bóveda, su propietario debe pasar primero rigurosos controles de seguridad y ser escoltado por un empleado del banco. Algunas puertas de las bóvedas pueden abrirse con una llave, pero otras cuentan con intrincados mecanismos de apertura y requieren hechizos para su apertura.

DESIGNING THE MODEL

"This is the tallest LEGO® Harry Potter™ set we have released so far. The design process began with a tiny version that was maybe around 1:8 scale of the final set, built in about 5 minutes! We then developed a slightly larger version and finally a full-size sketch model.

Of course, we wanted to recreate the bank as it's seen from street level; however, as much of the action at Gringotts™ Bank happens in the caverns below (where a complex network of vault cart tracks provides access to all the vaults), we included this section, too. These sections can be stacked on top of each other to create a jaw-droppingly tall slice of Diagon Alley™ that can be displayed as one piece, as two separate modular builds... or three if you let the Ukrainian Ironbelly dragon fly off the roof!"

*George Gilliatt and Justin Ramsden,
LEGO® Model Designers*

CONCEPTION DU MODÈLE

« Il s'agit du plus grand ensemble LEGO® Harry Potter™ lancé jusqu'à présent. Le processus de conception a commencé par une version minuscule qui était environ à l'échelle 1:8 de l'ensemble final, construite en 5 minutes environ ! Nous avons ensuite développé une version légèrement plus grande et enfin, un modèle préliminaire à taille réelle.

Bien sûr, nous avons voulu recréer la banque telle qu'elle apparaît au niveau de la rue; cependant, comme une grande partie de l'action à la banque Gringotts™ se déroule dans les cavernes situées en dessous (où un réseau complexe de rails de chariots permet d'accéder à tous les coffres),

nous avons également inclus cette section. Ces sections s'empilent les unes sur les autres pour créer une tranche du Chemin de Traverse d'une hauteur stupéfiante qui peut être exposée comme une seule pièce, comme deux constructions modulaires distinctes... ou trois si vous laissez le dragon Pansedefer ukrainien s'envoler du toit ! »

*George Gilliatt et Justin Ramsden,
concepteurs de modèles LEGO®*

DISEÑO DEL MODELO

«Este es el set LEGO® Harry Potter™ más alto que hemos lanzado hasta ahora. El proceso de diseño comenzó con una pequeña versión cuya escala en comparación con el modelo final era de 1:8 más o menos, ¡y que hicimos en 5 minutos! Luego, desarrollamos una versión un poco más grande y, por último, un modelo preliminar a escala completa.

Naturalmente, queríamos recrear el banco tal y como se ve desde el nivel de la calle; no obstante, como una gran parte de la acción que sucede en el banco Gringotts™ tiene lugar en las cavernas que hay debajo (donde una compleja red de vías para vagones brinda acceso a todas las bóvedas), incluimos también esta sección. Estas secciones pueden apilarse una encima de la otra para dar forma a una rebanada del Callejón Diagon increíblemente alta que puede exhibirse como un solo modelo, como dos piezas modulares separadas..., ¡o tres, si permites que el dragón Ironbelly Ucraniano emprenda el vuelo desde la azotea!».

modelistas de LEGO®*

A TOUR OF THE BANK – guided by its Muggle™ Designers

"We carefully studied the LEGO® Diagon Alley™ set (75978) and made sure that if fans want to combine the sets, the buildings can connect and blend naturally together because of tiny details, such as the lamps hanging off the side of the building and the inclusion of the Magical Menagerie in a building adjacent to the bank. The caverns were tricky to design. The model had to be incredibly strong and stable while also looking adequately 'rickety' to mimic the perilous vault cart ride through the caverns and The Thief's Downfall in *Harry Potter and The Deathly Hallows™: Part 2*. We explored different directions and worked with our model coach, Monika Bukhave Fruergaard, to make sure it could support the weight of the street-level modular building as well. We included the three vaults that are visited throughout the films: Vault 713 with the Sorcerer's Stone™, the Potter Family vault, and Bellatrix Lestrange's vault with Helga Hufflepuff's golden cup. (As mere Muggles™, we couldn't cast an actual Gemino Curse on the cup, but, well... try to steal it and you'll see!)"

George Gilliatt and Justin Ramsden,
LEGO® Model Designers

UNE VISITE DE LA BANQUE – guidée par ses Concepteurs Moldus

« Nous avons soigneusement étudié l'ensemble LEGO® Le Chemin de Traverse (75978) et nous avons veillé à ce que, si les amateurs veulent combiner les ensembles, les bâtiments puissent se connecter et se fondre naturellement les uns dans les autres grâce à de minuscules détails, comme les lampes accrochées sur le côté du bâtiment et l'inclusion de la Ménagerie magique dans un bâtiment adjacent à la banque. Les cavernes ont été difficiles à concevoir. Le modèle devait être incroyablement solide et stable tout en ayant l'air suffisamment "chancelant" pour imiter le périlleux trajet en chariot à travers les cavernes et la Cascade des Voleurs dans *Harry Potter et les Reliques de la Mort : 2^e partie*. Nous avons envisagé différentes directions et travaillé avec notre maquettiste, Monika Bukhave Fruergaard, pour nous assurer qu'il pouvait également supporter le poids du bâtiment modulaire situé au niveau de la rue. Nous avons inclus les trois coffres qui sont visités dans les films : Le coffre 713 avec la Pierre philosophale, le coffre de la famille Potter, et le coffre de Bellatrix Lestrange avec la coupe d'or d'Helga Poufsouffle. (Étant de simples Moldus, nous n'avons pas pu lancer un véritable maléfice de Gemino sur la coupe, mais, bon... essayez de la voler pour voir !) »

UN RECORRIDO POR EL BANCO (de la mano de sus Diseñadores Muggles™)

"Estudiamos detenidamente el set LEGO® Callejón Diagon (75978) y nos aseguramos de que, si los fans quieren combinar los sets, los edificios puedan conectarse e integrarse con naturalidad gracias a pequeños detalles como las lámparas que cuelgan por un lado del edificio y la inclusión de la tienda de animales mágicos en un edificio adyacente al banco. Las cavernas fueron difíciles de diseñar. El modelo tenía que ser increíblemente fuerte y estable y, al mismo tiempo, tener un aspecto lo suficientemente desgastado para replicar el peligroso paseo en vagón por las cavernas y la Perdición del Ladrón de *Harry Potter y las Reliquias de la Muerte™ Parte 2*. Exploramos distintas posibilidades en cuanto a la dirección y trabajamos de la mano con nuestra asesora de modelos Monika Bukhave Fruergaard para asegurarnos de que también pudiera soportar el peso del edificio modular que se observa desde la calle. Incluimos las tres bóvedas que se visitan en las películas: la bóveda 713, que contiene la Piedra Filosofal, la bóveda de la familia Potter y la bóveda de Bellatrix Lestrange, donde se encuentra la copa dorada de Helga Hufflepuff. (Siendo simples Muggles™, no pudimos lanzar una auténtica maldición Gemino sobre la copa, pero bueno... ¡Trata de robarla y verás!)".

DESIGNED WITH CARE FOR MAGICAL BEINGS

"I worked on lots of the detailed decorations, such as the beautiful marble pillars inside the bank foyer, and the stickers that feature many secrets and awesome details we know LEGO® Harry Potter™ fans will love. My favorite parts to work on were all the intricate signs and blackboards included throughout the set. We designed all the minifigures to capture their personalities and signature looks so fans can recreate their favorite Gringotts™ scenes. We hope you'll have fun discovering all the magical details in the set, both brick-built and in its decorations! As Griphook said, 'There are more than a few curious things in the vaults of Gringotts™'."

Peter Kjærgaard, LEGO® Graphic Designer

CONÇU AVEC SOIN POUR LES ÉTRES MAGIQUES

«J'ai travaillé sur plusieurs décos détaillées, comme les magnifiques piliers en marbre à l'intérieur de l'entrée de la banque, et sur les autocollants qui présentent de nombreux secrets et détails impressionnantes que les amateurs de LEGO® Harry Potter™ vont adorer. J'ai particulièrement aimé travailler sur les pancartes et les tableaux noirs qui parsèment l'ensemble. Toutes les figurines ont été conçues pour refléter la personnalité et l'apparence caractéristique des personnages afin que les amateurs puissent recréer leurs scènes préférées au sein de Gringotts™. Nous espérons que vous prendrez plaisir à découvrir tous les détails magiques de l'ensemble, qu'il s'agisse des briques ou des décorations ! Comme le dit Gripsec, "Il y a bien des choses curieuses dans les chambres fortes de Gringotts™" ».

Peter Kjærgaard, graphiste LEGO®

DISEÑADO CON ESMERO PARA SERES MÁGICOS

"Trabajé en muchas de las detalladísimas decoraciones, como los preciosos pilares de mármol del interior del vestíbulo del banco, y en las calcomanías, que presentan muchos secretos y detalles asombrosos que sabemos que encantarán a los fans de LEGO® Harry Potter™. Las partes en las que más me gustó trabajar fueron las elaboradas señales y los pizarrones que pueden encontrarse por todo el set. Diseñamos todas las minifiguras de manera que se capturara su personalidad y aspectos característicos para que los fans puedan recrear sus escenas favoritas de Gringotts™. ¡Esperamos que te diviertas descubriendo todos los detalles mágicos del set, tanto los que se construyen con bricks como los que forman parte de su decoración! Como dijo Griphook: 'Hay muchas cosas curiosas en las bóvedas de Gringotts™'."

Peter Kjærgaard, diseñador gráfico de LEGO®

EXPAND YOUR DIAGON ALLEY™ SET

"Gringotts™ Wizarding Bank is arguably the most iconic building in Diagon Alley™. It was a notable exclusion from our LEGO® Diagon Alley™ set (75978) in 2020, and we know how requested this building is among LEGO Harry Potter™ fans. It's such a unique location and the design team really wanted to do it justice and include not only the bank itself with its twisted facade but the vaults and the Ukrainian Ironbelly dragon too, allowing fans to display different key moments from the films."

Andrew Seenan,
LEGO® Harry Potter™ Creative Lead

AGRANDISSEZ VOTRE ENSEMBLE DU CHEMIN DE TRAVERSE

« La banque des sorciers Gringotts™ est sans doute le bâtiment le plus emblématique du Chemin de Traverse. Son absence de notre ensemble LEGO® Le Chemin de Traverse (75978) en 2020 était frappante, et les amateurs de LEGO Harry Potter™ étaient très nombreux à demander ce bâtiment. C'est un lieu tellement unique. L'équipe de conception voulait vraiment lui faire honneur et inclure non seulement la banque elle-même avec sa façade tordue, mais aussi les coffres et le dragon Pansedefer ukrainien, pour permettre aux amateurs de reproduire différents moments clés des films. »

Andrew Seenan,
responsable de la création LEGO® Harry Potter™

AMPLÍA TU SET CALLEJÓN DIAGON

"El Banco Mágico Gringotts™ es posiblemente el edificio más emblemático del Callejón Diagon. Su exclusión del set LEGO® Callejón Diagon (75978) en 2020 fue un hecho notable sabiendo lo popular que es este edificio entre los fans de LEGO Harry Potter™. Es un lugar sumamente singular, y el equipo de diseño estaba decidido a hacerle justicia e incluir no solo el banco con su retorcida fachada, sino también las bóvedas y el dragón Ironbelly Ucraniano, lo que permitirá a los fans mostrar diferentes momentos clave de las películas".

Andrew Seenan,
director creativo de LEGO® Harry Potter™

In the Wizarding World, Gringotts™ Bank was established in 1474 by a Goblin named Gringott. It was created in response to the 14th Century Wizarding Economic Bubble, which unfortunately burst due to the Soap Blizzard of 1378.

Dans le monde des sorciers, la banque Gringotts™ a été fondée en 1474 par un gobelin nommé Gringott. Elle a été créée à la suite de la Tempête de Savon de 1378, qui a fait éclater la bulle économique des sorciers du 14^e siècle.

En el Mundo Mágico, el banco Gringotts™ fue fundado en 1474 por un duende llamado Gringott. Se creó en respuesta a la burbuja financiera mágica del siglo XIV, que desgraciadamente estalló debido a la ventisca de jabón de 1378.

A night view of the ornate entrance to Gringotts Bank in Diagon Alley. The entrance features a large, curved, light-colored stone archway supported by two fluted columns. The words "GRINGOTT'S BANK" are carved in gold letters along the top edge of the arch. Above the arch is a balcony with a black metal railing. The building behind the entrance is made of light-colored stone and has several windows with dark frames. A street lamp is visible on the right side of the frame.
